Directions for Using the Computer-Based Exams Index

The Computer-Based Exams Index allows candidates to identify specific academic content in each of the three sample examinations. For example, consider the following entry: **Breathing exercises 2:** 146, 152; **3:** 8. The bold numbers represent the exam number and the non-bold numbers that follow represent the question number within the respective exam. Therefore, questions pertaining to breathing exercises are located in Exam Two: Question 146, 152 and in Exam Three: Question 8. The index provides candidates with an efficient and effective method to review selected academic content after completing each of the sample examinations.
